INFORMS:

COLOMBIA, BOGOTA, D.C. SEPTEMBER 15, 2021. CEMEX LATAM HOLDINGS, S.A. (“CLH”) (BVC: CLH) informs that it will strengthen its presence in Guatemala with the construction of a new cement grinding mill. For this purpose, CLH also informs that its indirect subsidiary, CEMEX Guatemala, S.A. (“CEMEX Guatemala”), was notified by the Municipality of San José of the Department of Escuintla, Guatemala, of the granting of the construction license for the installation of a new grinding mill for its “Arizona Plant”, allowing the expansion of the capacity of cement production from 0.5 metric tons per year to approximately 0.9 million metric tons per year, representing an increase of 0.4 metric tons per year, which is expected to be completed in early 2023.

The new mill represents an advance in terms of efficient and sustainable technology use, allowing the production of cement with lower CO2 emissions, which is in line with the *Future in Action* global program designed by the CEMEX Group to reduce its carbon footprint.

The total amount of this investment is approximately US\$25 million.

CLH is a regional leader in the building materials solutions industry that provides high-quality products and services to customers and communities in Colombia, Panama, Costa Rica, Nicaragua, El Salvador and Guatemala.
